

**Tuesday, October 5, 2010  
Board of County Commissioners  
Work Session**

**Location: Ouray County Land Use / Road and Bridge Facility  
111 Mall Road, Ridgway, Colorado**

**9:00 a.m.** The Board of County Commissioners will be meeting in a work session with County staff and representatives of state and federal permitting agencies to understand "Who Regulates What with Respect to Hardrock Mining." The Board has asked the permitting agencies to come and walk the County through the process of how a mining company would apply for a mining permit through their agency, what kind of internal and external review processes take place, how the agency communicates with local governments, what aspects of the mining operation are regulated, typical timelines for permitting, and finally how mining activities and reclamation activities are monitored.
