Who is the NFF?

The National Forest Foundation (NFF), chartered by Congress, engages Americans in community-based and national programs that promote the health and public enjoyment of the 193-million-acre National Forest System.

We believe that communities should play a leading role in determining the future of our National Forests and Grasslands, so we focus our efforts on connecting these communities, and the people who comprise them, to the tools, knowledge, and funding to become active and devoted stewards of this incredible public estate.

We encourage and support collaborative processes and strive to improve the relationships between communities and the Forest Service.
